## DESIGN ID

The Roaring Twenties: the decade that will forever be known for the rise of radio, cinema and jazz music. Fashion is provocative and interiors more opulent than ever before. Fast-forward to the present day, where the luxurious new palazzo style is an unstoppable trend. We see many typical Twenties elements making a comeback, although in contemporary form. That combination of new palazzo and the lavish style of the Twenties forms the inspiration for the Insolence collection.

### Pattern Grow

Fil-a-fil wallcovering with a soft velvet touch. The design is based on an authentic drawing from the beginning of the 20<sup>th</sup> century, but in a very modern version. The colours are striking and contemporary, the pattern itself is faded, giving it a bleached effect.

### Pattern Blast

A trendy interpretation of the classic terrazzo floors, which are undeniably making a comeback in our interiors.

### Pattern Shiver & Swing

Inspired by the flamboyant Charleston dresses! Fringes are literally everywhere again: in fashion, jewellery, handbags and in modern interiors. Make your choices of non-woven with a realistic textile effect (Shiver pattern) or authentic fil-a-fil with soft velvet touch (Swing pattern).

### Pattern Vanity

A modern herringbone inspired by the Gatsby style, with a fine line in metallic gold.

### Pattern Temper

The fil-a-fil effect, which is woven into the core of the product, results in a truly unique plain wallcovering. You can see this very well by looking at the back. This technique makes the textile effect on the wall very realistic.

### Pattern Moxie

A design inspired by classic, wrought-iron collapsible lift doors. You can still see them occasionally in hotels in the heart of Paris.

### Pattern Nerve

This design fits perfectly into the layering trend. The pattern is simplistic, but you can look at it for ages. Which plane came first?

**Les années folles : la décennie connue à jamais pour l'essor de la radio, du cinéma et de la musique jazz. La mode est provocante et les intérieurs plus exubérants que jamais. Aujourd'hui, c'est le nouveau style luxueux palazzo qui est une tendance inégalée. Nous voyons le retour de nombreux éléments des années 1920, bien que sous une forme contemporaine. Cette combinaison du nouveau palazzo et du style opulent des années 1920 continue la inspiration de la collection Insolence de los años 20 continúa la inspiración de la colección Insolence.**

Un fil à fil con suave tacto atropellado. El diseño se basa en un dibujo amigable de principios del siglo XX, pero modernizado. Su color es llamativo y vibrante, y el motivo es sencillo, creando así un efecto desgastado.

Un fil à fil avec une touche veloutée douce. Le design est basé sur un dessin amical du début du 20e siècle, mais il a été entièrement remis au goût du jour. Les couleurs sont surprenantes et contemporaines, le motif a été délavé, ce qui lui confère un effet vieilli.

Una interpretación rebosante de la clásica suiedad de los terciados de terrazo, que están indiscutiblemente de regreso a nuestras interiores.

Inspirado en los vestidos charlestón de los años 20! Los flecos son parte fundamental de la moda, sobre los bijoux, sobre los sacos a mano y en los interiores modernos. Elije entre un soporte no tejido (diseño Shiver) o un antástico fil a fil con suave tacto atropellado (diseño Swing).

Un moderno diseño en espiga inspirado en el estilo Gatsby, con una fina línea realizada en tono metálico dorado.

Un chevron moderne inspiré du style Gatsby, avec une fine ligne en or métallique.

La particularité de cet uni est l'effet fil à fil incorporé dans la base de la membrane. Se voyez bien sur la face arrière. Cette technique rend l'effet textile sur la mur très réaliste.

Un diseño inspirado en las clásicas puertas de ascensor metálicas de escala. Así se la pasará ver de vez en cuando en los hoteles del corazón de París.

Ce motif s'intègre parfaitement à la tendance multicouche. Il s'agit d'un motif simple, mais dont vous ne pouvez pas détacher les yeux. Quel niveau était-il à la première ?

De stoerste tecniciteit dat voor eeuwig gekend staat om de spikte van radio, bioscoop en jazzmuziek. De mode is uitdagend, maar de interieurs uiterst luxueus dan ooit. Feit voorwaar dat er veel typische jaren 20 elementen terug zijn die in een hedendaagse vorm. Die combinatie van new palazzo en de weelderige stijl van de jaren twintig vormt de inspiratie voor de collectie Insolence.

Een fil à fil met soft velvet touch. Het dessin is gebaseerd op een aardige tekening uit het begin van de 20e eeuw, maar dat heel modern gebracht. De kleuren zijn opvallend en helder, de tekening zelf wordt vervangen en kreeg zo een uitgesproken effect.

Een hippe interpretatie van de klassieke terrazzo vloeren, die onmiskenbaar een comeback maken in onze interieurs.

Gecombineerd op de zwierige charleston parkjes! Fransen zijn vandaag weer overal in de mode, overal, overal, handtassen voor in moderne interieurs. Maak je keuze uit één met een realistisch textieldruk (ontwerp Shiver) of een authentieke fil à fil met soft velvet touch (ontwerp Swing).

Een modern herringbone geïnspireerd op de Gatsby stijl, met een fijn lijntje uitgevoerd in goudkleurig metaal.

Het bijzondere aan deze uni is het fil à fil effect, dat verwerkt is tot in de basis van het vlech. Je ziet dit heel goed aan de achterkant. Door deze techniek wordt het textieldruk op de muur zeer realistisch.

Een dessin geïnspireerd op de klassieke, metalen harmonica's van Metal inspiriert wurde. In den hotels in het hart van Parijs zie je ze hier en daar nog wel eens.

Dieses Design passt perfekt in die Layering trend. Hier ist ein einfache Zeichnung, aber kann es sich auf jeden Fall sehen. Welk Material war es zuerst?
