CASAMANCE

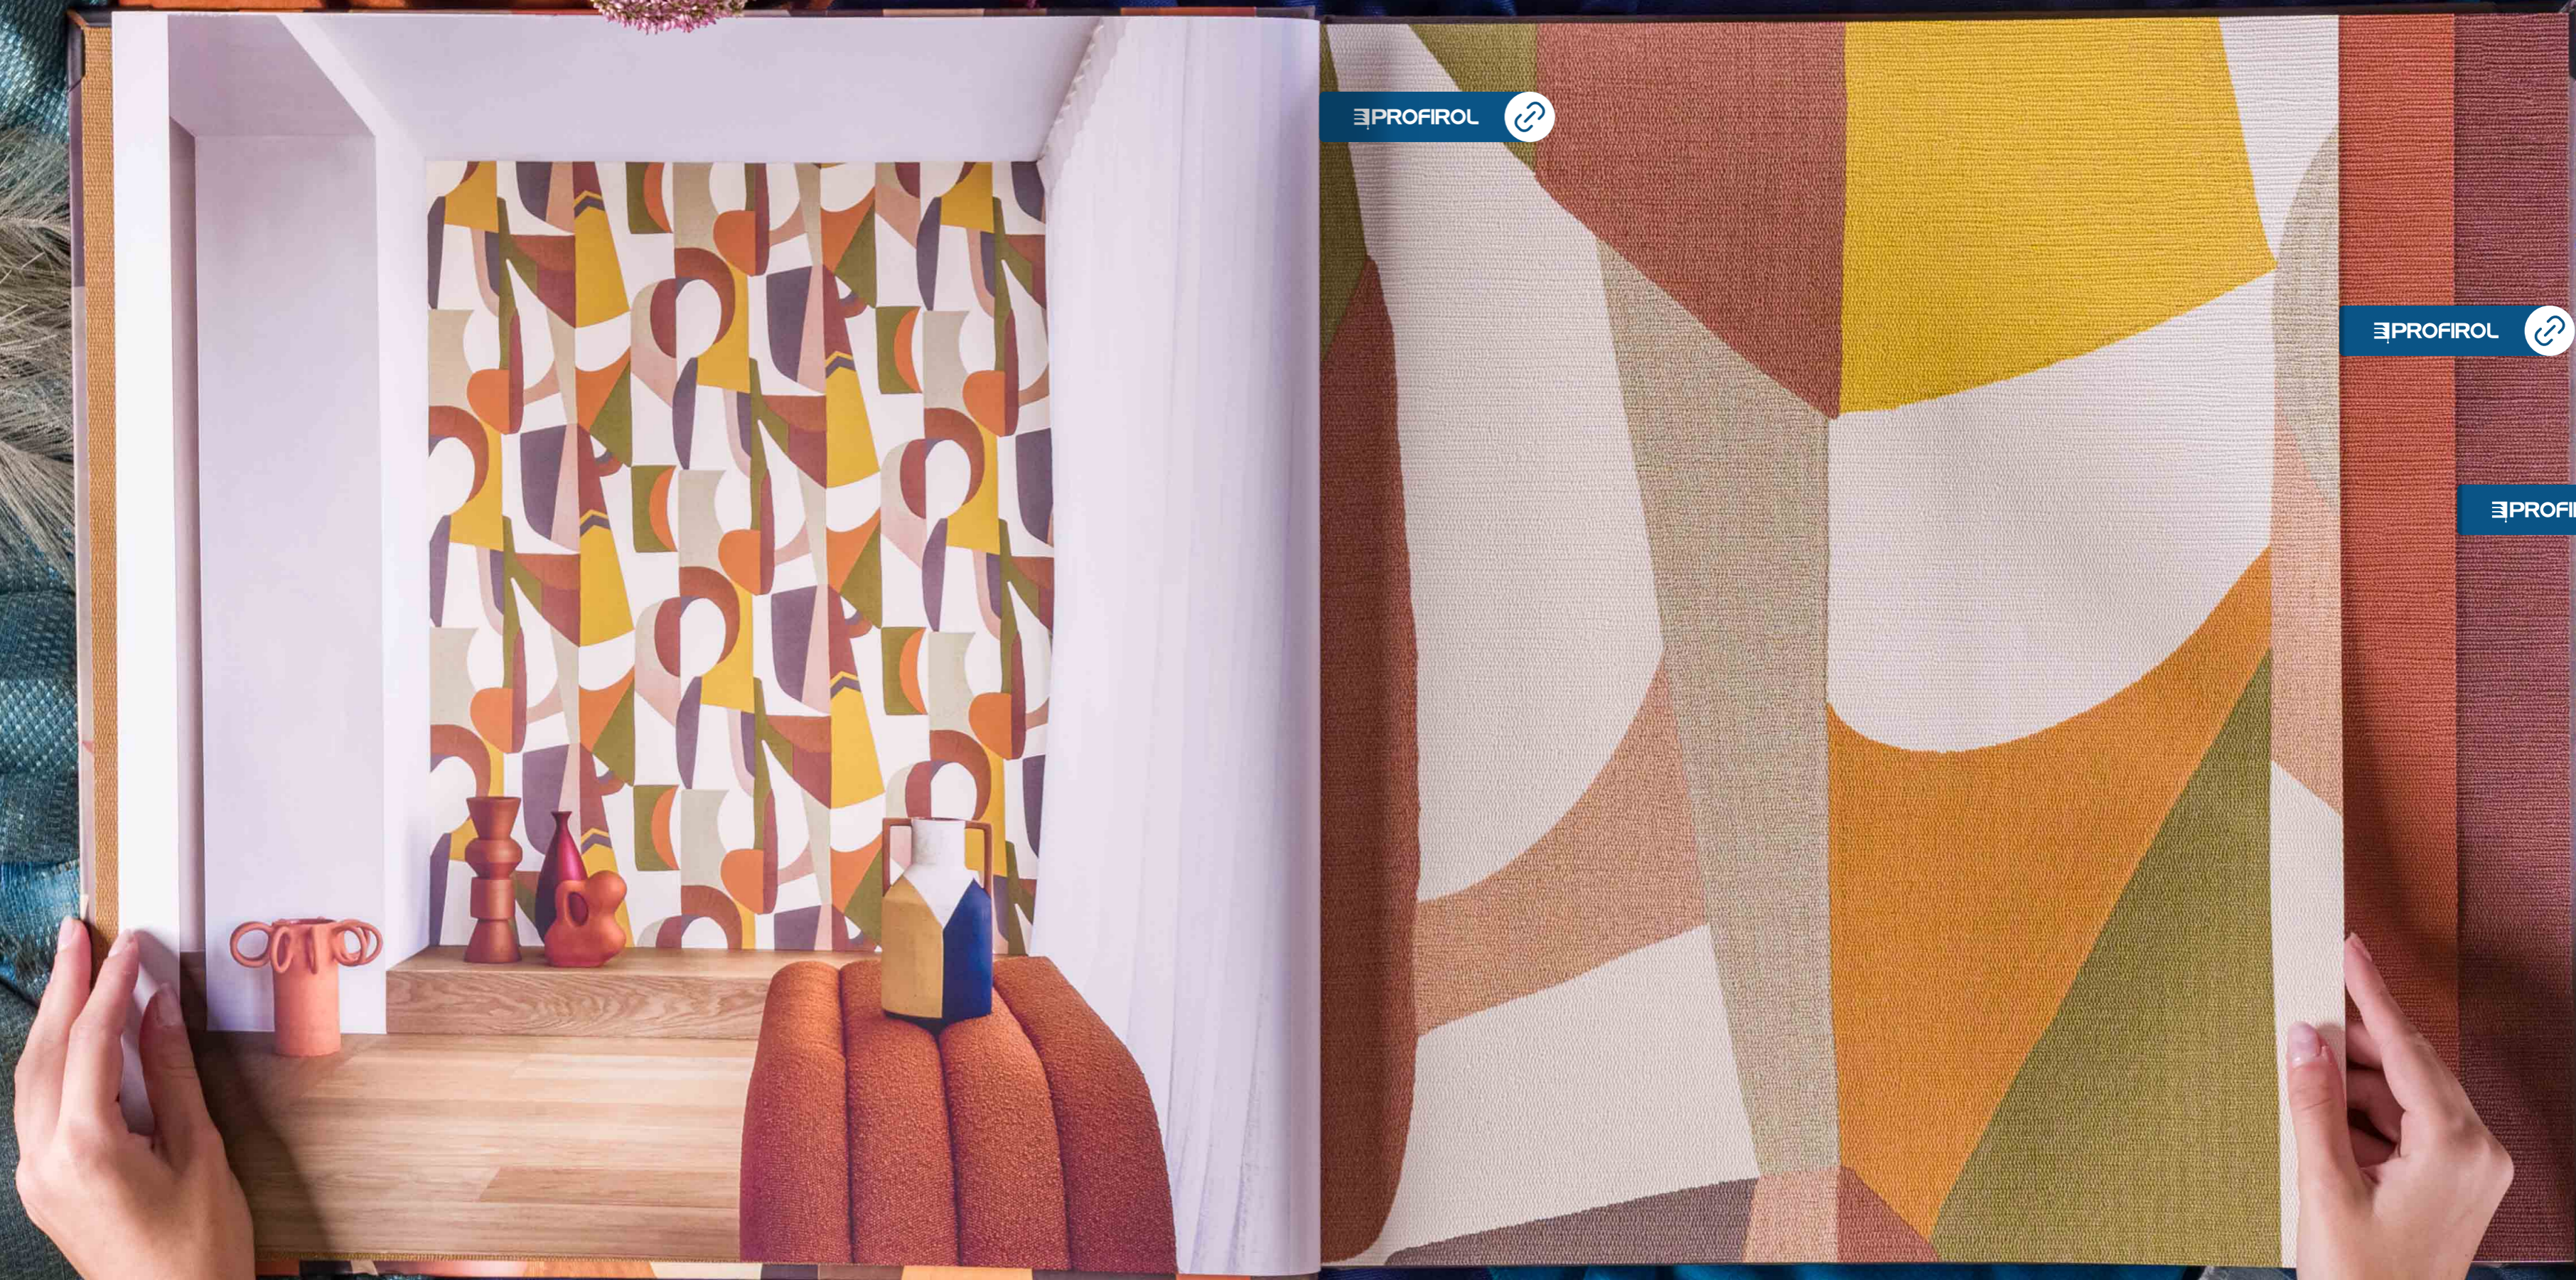

L'ATELIER

Des pièces uniques aux lignes imparfaites, des teintes chaudes et profondes issues de la terre, inspirent Casamance pour cette collection. Aplats colorés, formes géométriques et cut-outs take their place on our walls. They evoke artists' studios, the study of organic shapes and textures. Le geste de l'artiste s'inscrit dans des effets de grain rappelant la toile du peintre, l'argile ou la broderie. En plaçant l'art au cœur des intérieurs, la collection répond à l'envie d'un nouvel art de vivre.

Unique pieces with imperfect lines, in deep, warm earth tones have inspired Casamance for this collection. Planes of colour, geometric shapes and cut-outs take their place on our walls. They evoke artists' studios, the study of organic shapes and textures. The artist's technique is captured in the grain, which suggests painter's canvas, clay or embroidery. By taking art into the heart of the home, the collection fulfils the desire for a new art of living.
